

For our office in Oldenburg we are looking for two:

Junior Science Communicators (m/f/d), full-time

You will co-develop and implement communication strategies for European-wide innovation projects relating to renewable energies, the circular economy and sustainability. This includes social media activity and the production of editorial content such as articles, infographics and short videos.

You should have a scientific degree or a similar qualification, be a social media enthusiast with an interest in science and technology issues and be fluent in English. Knowledge of other European languages, journalistic experience and an understanding of social media analysis are additional assets.

For this position, you should be dynamic, self-confident and team-oriented with a collaborative approach. You should also enjoy communicating and networking with a range of different people.

We offer a position with a wide range of tasks in a friendly multi-national team. You will be given a high level of freedom in how you fulfil your tasks and will experience little hierarchy. For this position remote working of up to 40% can be arranged.

For more information on our organisation, projects and multi-national team, please visit our website.

Please send your application with salary expectations by March 1st 2022 to:

European Science Communication Institute (ESCI) gGmbH

Attention: Mrs Helga WALLEY
